

## Sixteen From Flying School Join Services

Maryville Flying School Has Trained Ninety-Seven Students.

### Commercial Pilots Trained

Only Seven Students Have Been Disqualified in Year of School's Operation.

Sixteen men have already gone out from the Maryville School of Aeronautics to join the United States Army and Navy forces, ten going into navy flying and six into army service. Four more men have applied for navy flying and are awaiting the completion of their present course before entering. Six more have made applications for army flying and are awaiting the completion of their secondary program.

The ten now in the navy are: Bill Bernau, Earlham, Ia.; Emil Miller, Maryville; Joseph Kurtright, Albany; Robert Kyle, Graham; Stanley Miller, Goldsboro; Kenneth Moore, New Hampton; Max Moore, Buffalo; Donald Paxson and Paul Durst, St. Joseph; Sidney Engelhardt, New Brunswick, N. J.

The following joined the army: Melvin Carter, Polo; Joseph Baker, Hamburg, Ia.; Tommy Friedrichs, Fairfax; Allen Kelsa, Elmer Mumford, Maryville; and Albert Owens, Hopkins. Mr. Owens lost his life in a plane accident in California.

Commercial Pilots  
Six of the men who completed advanced training are now rated as commercial pilots and instructors. These men are: Forrest Clary, Thomsen, Ga.; David White, Cameron; Robert Graf, Rock Port; Carl Chambers, Tarkio; Earl Bassett, Skidmore; and Marvin Wolfe, Tarkio.

One student, Edward Binder, completed his secondary training and went ahead on his own time and gained a commercial license and instructor's license. He is now employed as an instructor of CPT at the Maryville school.

One trainee of the local school has gone into the Canadian airforce. He is Dudley Pittman of Plattsburg. One student went into the United States weather bureau as an airways meteorologist and is now taking graduate work in that field at New York university. He is Walter Wade of Maryville.

Two Girls Trained  
Two of the total number trained were girls, Martha Harmon of Hopkins and Doris Bristol of Maryville. Had it not been for the present defense program and the need for man power which excluded girls from training, these girls might have gone ahead and finished advanced training, Captain Schultz, in an interview, stated.

Since its beginning a year ago, the school has trained 97 students, exclusive of the current fall class. Eighty students have completed primary training at the Maryville school and have received their private pilots certificates while ten have received primary training at other schools but have taken their secondary and advanced training at Maryville. Thirty-two have completed secondary training, six have completed advanced courses and are now rated as commercial pilots and instructors.

Six students are currently enrolled in advanced courses. Nine are currently enrolled in the secondary course and there are twenty primary students under training now. Nine of the previously trained secondary students have applications on file for future advanced courses. Every one of the current thirty students in primary and secondary courses has applied for training in either the army or navy or has applied for advanced training to become instructors.

Seven Disqualified  
Only seven students out of the total have been disqualified or discontinued, some for inaptitude and some for lack of interest, the captain said. Also, out of the total trained, there are nine who have taken the primary course and are now attending college in order to gain sufficient credits to qualify for secondary and advanced training.

Frederick Kurtz Dies  
The funeral of Frederick Kurtz, a former student of the College, who died in a St. Joseph hospital, was held Saturday in Maryville. Mr. Kurtz was active in debate and public speaking while a student in College.

## GETTING RESULTS

Dear Editor:

I was reading in the college paper last week that President Lamkin wanted the addresses of all the students that are in camp. I am sending my son's address as I know he would enjoy reading the college paper.

Very truly yours,  
Mrs. \_\_\_\_\_  
The foregoing letter received this week indicates that the Northwest Missourian is read by mothers of students and indicates that articles in it get results. The name has been added to the mailing list as have several others which have been reported to the editor or the staff.

## Religious Emphasis Week Committee Begins Work

The executive committee for Religious Emphasis Week has started work on the program for this year. The date of the observance of this week has been set for the first week in February. The committee will consider the questions that students want to hear discussed and decide on the speakers for the week.

Faculty members of the committee are Mr. A. H. Cooper, Miss Olive S. DeLuce, Mr. John Rudin, Mr. Eugene Seubert, Mr. Wilbur Stalcup, Miss Kathryn Franken, and Miss Marian B. Lippitt. Student members are Mary Ann Busby, Richard McDougall, Marion Moyes, Mary Frances McCaffrey, and Margaret Hackman.

## Conception Choir Will Sing Group of Gregorian Chants

Reverend Hugh Farrington Will Lecture on Art and Prayer of Chant.

A lecture on the Art and Prayer of Gregorian Chant, by the Reverend Hugh Farrington, O. S. B., a former student of the College, now a member of the faculty of the English department of Conception College, will be given Wednesday, December 3, at the regular ten-o'clock assembly. There will be demonstrations by the Schola of the Abbey Choir from Conception, assisted by students of Conception College. The chant choir will be directed by the Reverend Edmund Kestel of the Music department of the college.

The program planned is as follows:  
Nunc Sancte Nobis Spiritus—Hymn—Mode II.  
Salve Sancta Parens—Introit—Mode II.  
Kyrie Eleison—Mass XVII—Mode V.  
Sanctus—Mass I—Mode IV.  
Salve Mater—Hymn—Mode V.  
Part II  
Deus in Adjutorium Meum Intende—Solemn Invocation.  
Ad Te Levavi—Introit—Mode VIII.  
Jerusalem—Communion antiphon—Mode II.  
Rorate Caeli—Introit—Mode I.  
Tollite Portas—Offertory antiphon—Mode II.  
Dominus Dixit Ad Me—Introit—Mode II.  
Puer Natus Est Nobis—Introit—Mode VII.  
Salve Regina—Marian antiphon—Mode V.

This visit of teachers and students from Conception will be the second time the College has had the opportunity of hearing a program on the Gregorian Chant. It is a program of general interest to all who would know something of the great music of the Catholic Church and of special interest to students of music.

## Dr. Densil Cooper Is at Toledo, Ohio, University

Dr. Densil Cooper, who took his B. S. degree from the College with the class of 1936, in a letter to Mr. George H. Colbert congratulating him on his eightieth birthday, says that he is now assistant professor of physics in the University of Toledo, Ohio. Dr. Cooper is a nephew of Mr. A. H. Cooper of the College faculty.

After leaving the College, Densil Cooper continued his study, taking the Ph. D. degree from the University of Missouri in August of 1940. While at Columbia, he did brilliant work in research on the cosmic ray. He went from the university to a teaching position at Huron University in South Dakota, and is now in Toledo.

Two Attend Committee Meeting  
Miss Chloe E. Millikan of the Education department and Mr. J. W. Jones, dean of the faculty of the College, attended a meeting in Kansas City last Saturday as members of a planning committee for a regional conference of the Progressive Education Association. The conference is to be held March 19-21 at Kansas City.

## Several Faculty Members to Have Part in Program

Will Go to St. Louis for State Association on December 3-6.

Several members of the STC faculty will participate in the seventy-ninth annual convention of the Missouri State Teachers association to be held in St. Louis December 3-6. Delegates to the convention from the community association which includes the STC faculty unit of the state association will be Miss Chloe E. Millikan of the Education department, Miss Olive S. DeLuce of the Fine Arts department and Dr. Frank Horsfall of the Agriculture department.

Uel W. Lamkin, president of the college, will serve on the policies and plans committee. Dr. Carol Y. Mason of the geography department will participate in a discussion on "Teacher Training and Conservation Education" under the general topic, "Conservation in the Education Program of Missouri."

M. C. Cunningham of the department of education and director of the Horace Mann school is chairman of the committee on sources of school revenue and will participate in a discussion of "Education of Free Men in an American Democracy." He is also secretary of the department of superintendents and will serve on that departmental program.

Miss DeLuce is chairman of fundamentals for the arts program discussion group and Miss Millikan will head a panel group in a discussion of the language-arts program in kindergarten and primary schools. E. E. Seubert of the English department will act as chairman of the English departmental discussion group and J. Norvel Saylor, chairman of the mathematics department, will present a discussion on mathematics in a group on "New Courses of Study for Missouri Secondary Schools."

The official delegates and most of those attending the convention will leave Tuesday, December 2.

## "Y" Groups Announce Programs for Winter

Last Sunday afternoon the "Y" council met at the Y. W. C. A. Hut to plan programs for future meetings in the winter quarter. Fourteen members of the combined cabinets of the Y. W. C. A. and the Y. M. C. A. and Miss Marian B. Lippitt and Dr. Harry G. Dildine, faculty sponsors, were present.

The following programs were planned:  
General theme of the quarter: "How May We Strengthen Religious Influences on the Campus?"  
December 4—Discussion of Religious Emphasis Week. In charge of Seniors in the "Y."  
December 11—Christmas Worship Service, led by Religious Forum Commission.  
December 18—A chili supper at 5:30, followed by Christmas Caroling.  
January 8—A discussion on the subject "How to Lead a Discussion," led by a faculty member of the speech department.  
January 15—Discussion on the subject "What shall we get out of Religious Emphasis Week?", led by a committee composed of the commission heads and the two "Y" presidents.

## Music Director Talks Before Monday Forum

Dr. Reven S. DeJarnette, director of the conservatory of music of the college, made a talk at the Men's Forum on Monday on "What Should Be the Intelligent Listener's Attitude Toward Popular Music?"

He traced the history of popular music from its negro origins to the present sophisticated swing music. He interspersed his talk frequently with musical illustrations.

The Women's Glee club at Syracuse university is in its thirty-second year.

## Saxophone Aids in Recovery

Learning to walk once is no news—babies are supposed to do that. But learning to walk three times is a distinction. At least one College student has achieved just that, even in the face of being told when he was twelve years old that he would probably never walk again.

Many in the College know Maurice Cook through his mastery of the tenor saxophone and the clarinet. These instruments are very close to the young man, for he believes they are partly responsible for the fact that he is able to walk today.

When Mr. Cook was 12, he was stricken with infantile paralysis. Four years later when almost recovered from the ravages of this disease he was in a car wreck. As a result of the accident, he lost all movement on the right side of his body. For six months he could only lie in bed, or remain propped in a wheel chair.

At this point in Mr. Cook's life the saxophone took on a new significance. As soon as there was any movement discernible in his arms he began to play his horn, clumsily at first, but with ever increasing skill, which today is helping him through college by earning him a berth on the College Dance Band and by enabling him to play professionally through the summer months. The constant playing worked the sluggish muscles until he regained full use of his arms.

Learning to use his legs followed on learning to use his arms. That Mr. Cook has made progress is evidenced by the fact that while he was in high school, he walked with crutches; while he was a freshman in college, he used a cane and a crutch; later he used just a cane; and today he uses no aid whatsoever.

## Dr. Anna M. Painter Is Author of Play

"When Peace Shall Come Again" Is Title for A. A. U. W. Play

"When Peace Shall Come Again," a play written by Dr. Anna M. Painter, head of the English department, will be presented to the members of the American Association of University Women and their invited guests on Thursday evening, December 4, at 8 o'clock, in the Horace Mann Auditorium.

The Christmas program of the Association has usually been a social occasion. This year it seemed more fitting, in consideration of the serious things happening in the world, to give some thought to the ideals for which the Association stands. Accordingly the program committee invited Dr. Painter to write a play which would be suitable for an international relations program and at the same time carry the Christmas message.

Mrs. Hazel Carter, Mrs. W. T. Garrett, Miss Marjorie Stone, and Miss Marian B. Lippitt take the parts in the play. It is being directed by Dr. Blanche H. Dow and Miss Mary Frances Lasell. Programs for the occasion are being made by a committee of which Miss Lela Acklin is the chairman. The art committee, with Mrs. Charles Bell as the chairman, is assisting in the staging; and the hostess committee, of which Mrs. John Sewell is the chairman, will act as the ushers and the hostesses.

## Miss Ruth Lawrence Has Position at Eugene Field

Miss Ruth Lawrence, who has graduated from the College with a major in music, began work this week as supervisor of music in the Eugene Field school, in Maryville. She takes the place of the former Miss Mary Carpenter, who resigned upon her marriage to Byron Price of Jefferson City.

Miss Lawrence after leaving the College completed her work for a Master's degree in music from Teachers College, Columbia University, New York. She taught last year in Stewartsville. She has had several years of teaching experience.

Miss Lawrence will live with her aunt, Mrs. F. M. Ryan, 222 West Second street. She is the daughter of Mrs. Cora Lawrence, formerly of Maryville, now in Maysville, where she lives with her son, Robert, who music supervisor there.

Miss Lucy Lea Brumbaugh Visits  
Miss Lucy Lea Brumbaugh, a graduate of last year, is visiting her parents in Maryville this week. Miss Brumbaugh is teaching third grade in the public school at Mount Vernon, Iowa. As she was coming home to spend the Iowa Thanksgiving, November 27, she took three days additional leave so as to spend the whole week here and in St. Joseph.

## Discussion Meeting Brings Large Crowd

Twelve High School People Honored for Superior Ability to Discuss.

Eighty-five students, teachers, and superintendents of high schools in Northwest Missouri were present at the first annual discussion meeting for high school students which was held Saturday, November 15, at the College. The schools represented and their coaches were: Concordia, Robert Lovelace; Parkville, Janet L. Clark; Platte City, Mrs. Wilma McCombs Tatman; Maryville, Mrs. Iva Ward Manley; Horace Mann, Mary Frances McCaffrey; Plattsburg, E. O. Hammond; St. Benedict's of Clyde, Sister M. Bernice, O. S. B.; Barnard, Nancy Moore; Conception College High School, Father Lawrence Gidley, O. S. B.; Guilford, Doris Lee Hiles; and St. Joseph Central, R. G. Bryant.

Twelve students were presented with awards for superior ability in use of the discussion method. They were: Cullen Blumenthal, Horace Mann; Edwin Ogden and Robert McDougall, Maryville; J. D. Rush, Barnard; Robert Schlapper, Concordia; Robert Lintner and Ann Wells, Platte City; Barbara Fry, Plattsburg; Wayne Herrington, Cary, Basset; and Vincent McCade, Parkville; and James, Moore, Conception.

The speech discussion was sponsored by the speech department of the college and local arrangements were made by Pi Kappa Delta, national speech fraternity at the college. Eighty-five students, their instructors and students and faculty of the STC speech department attended the luncheon at Residence hall, Robert L. Main of the college speech faculty was master of ceremonies.

The discussion was on the subject, "How Can We Best Defend the Democratic Way of Life?" It originated with a communication sent by President Roosevelt to all speech instructors asking them to encourage public discussions of freedom.

Mr. John Rudin head of the speech department, has this to say concerning the meeting: "We are very much pleased with the success of our discussion meeting and encourage public discussions of freedom."

Jack Ford Writes  
John L. Ford, a graduate of the College in the class of 1933 and known to his friends as "Jack" is seeing some of the world in the employ of the United States Weather Bureau at the Airport Station, New York City. A card, which was mailed from Lisbon, Portugal, has recently been received by Dr. Blanche H. Dow, chairman of the Foreign Language department of the College.

Miss Ruth Villars, Miss Winde Ann Carruth, and Miss Dorothy Truex were dinner guests of Miss Ruth Miller at noon Thursday. Miss Miller's parents, Dr. and Mrs. Jesse Miller, also were guests.

## Mr. Seubert Goes South to Attend English Council

Likes Southern Hospitality He Experiences; Finds Meeting Stimulating.

Mr. Eugene E. Seubert of the English department returned this week from a meeting of the National Council of Teachers of English held in Atlanta, Georgia. Approximately 3500 English teachers were present at the meeting. The theme of the convention was "Defense of American Traditions" and its purpose was the turning of the attention of teachers of English to their responsibilities in light of problems facing us today.

Almost every phase of the teaching of English was discussed—elementary, secondary, and teachers' college problems. The question of preparation of teachers for teaching English was one of the dominant themes. The new light on the concept of the psychology of learning and the acuteness of the reading problem in the secondary school necessitate the revision of the traditional teacher training program for teachers of English. Changed student personnel makes many adaptations of material necessary. Dr. Stella Center, who conducts a reading clinic at New York University, was on the secondary school level.

Mr. Seubert enjoyed particularly his associations with those leaders who are shaping the teaching of English today. John Erskine, who talked on the problem of teaching college students to write, and William Snow Etheridge, famous essayist, were two of the outstanding speakers at the convention.

Mr. Seubert stated that his contact with southern hospitality was very pleasant.

## College Graduate Says Parachuting Is Thrilling

"So far, in the past, I've never experienced anything quite so thrilling as jumping from a plane and depending on a few yards of silk to save my life!" says Edgar Abbott in a letter written this week to President Lamkin. He had just completed his five jumps to become a qualified army parachutist—the newest thing the army has, he says.

Mr. Abbott, a graduate of the College, hopes to be accepted for the January class in officers' training. He says that the competition is keen, but thinks his National Guard experience while in the College and his army record will help his chances of being received.

Co. A, 503 Parachute Bw. Fort Benning, Florida is Mr. Abbott's present address.

## Supervisor Here From Washington

Miss Van Horn Comes Here to See Work of Miss Cozine on Tests.

Miss Rina Van Horn of Washington, D. C., was recently on the campus. Miss Van Horn is a National Supervisor in the National Board of Education. She came to Maryville at the request of Miss Mabel Cook, daughter of T. H. Cook of the college faculty. Miss Cook is acting state supervisor of Home Economics. Miss Van Horn came here to see the work of Miss Cozine on the evaluation of tests.

While here, Miss Van Horn was especially impressed by the library, the Home Management House, and the spacious campus.

Miss Van Horn has been a student at the universities of Chicago, Columbia, Minnesota, and California. She revealed that she had two hobbies, sketching and collecting maps. Her map collection includes a map of Jamaica printed in 1709.

The girls at the Home Management House gave a breakfast Friday morning with Miss Van Horn, Miss Cook, Miss Hattie M. Anthony, Miss Marjorie Elliot, and Miss June Cozine as guests. Luncheon for the guests was given at the home of Miss Cook.

After her visit here Miss Van Horn left for Chicago.

## Former Student Dies After Long Sickness

Mrs. Campbell Yothers, who was formerly Miss Winifred Carpenter of Maryville, died last Saturday at her home in Canton, Ohio, after an illness of several months. She is survived by her husband and one son, Lee Yothers of Canton.

Mrs. Yothers was a former student of the College. She is the sister of Katherine, Lillian and Dora Carpenter all of whom have been students at the College, and of Fleming Carpenter, a brother who lives in Pittsburgh, Pa.

## Many Students Work Way Through College, Recent Survey Discloses

Night Watchman Hears About Former Quad Men

A letter received by the night watchman, R. L. Noblett, bore interesting tidings of the whereabouts of several men who formerly resided at the Quad. The letter came from Private Harold N. Hedburg, who, when he lived at the Quad, was very handy at woodwork, being responsible for the creation of the desks which are now used in each of the rooms of the Quad. Mr. Hedburg is now a member of the Third Signal Training Battalion, Fort Monmouth, Red Bank, New Jersey.

John Landrum, former Quad Mayor, is now employed by the Sears Roebuck Company of Los Angeles, California. Kenneth Crawford, who held the Quad Mayorship for two terms, is now a filing clerk for the Vega Aircraft Company, a subsidiary concern of the Lockheed Corporation. J. B. Goodburg, after working for some time for the Douglas Aircraft Company of Santa Monica, returned to his home in Moberly, Missouri, where he was married; he is now working for the Douglas Company again. Kirtley Neale now sells Studebaker automobiles in Glendale, California. Virgil Klontz is now an employee of the North American Aircraft Corporation of Inglewood, California.

## Riley Dunham Sends Mathematics Story From Michigan

Former Student Works for Yellow Truck and Coach Company in Pontiac.

Riley Dunham, a student of the College during the years of 1939 and 1940, is now located at Pontiac, Michigan, where he is employed by the Yellow Truck and Coach Manufacturing Company. In a letter to Mr. George H. Colbert of the Mathematics department, he writes as follows:

"In reading yesterday's (Nov. 12) Detroit Free Press I came upon a little article which caused me immediately to think of you and words you often repeated to the class (Algebra 10) concerning applied mathematics. I hope you find the bit of information as entertaining as I."

The article follows: "In London last week, some members of a Roosevelt mission conferred with English officials. A note was brought to two of the Britishers—who left, saying: 'We'll be back shortly.' . . . Those men are Britain's foremost mathematicians. They were rushed, by air, to Dover—where three men, watching a Rugby game, had been killed by a Nazi shell fired across the Channel. The mathematicians studied the shell's trajectory—arrived at by measuring the angle of the snapped branches in the trees through which the shell had traveled. They made their calculations and located the exact spot in France from which the shell had been fired. An RAF flier went up and across and destroyed the gun. . . . The mathematicians flew back to the London meeting. 'Sorry, gentlemen,' they apologized to the Americans. 'We had a bit of figuring to do.'"

Mr. Colbert in commenting upon the story said that almost the same method had been used in the First World War to locate "Big Bertha," the famous German gun for long distance shooting.

## Mr. Phillips Talks to University Professors

"Probable Effects of the War on Education" was the topic used by Mr. Homer T. Phillips of the faculty of the Education department for his talk at the dinner meeting of the American Association of University Professors, Monday evening, November 17, at Hotel Linville.

Mr. Phillips admitted that life is pessimistic about the outlook for education. He supported his position by looking at the effects other wars have had upon education. He did not paint an entirely black picture, but he did show some of the disheartening effects which are likely, he thinks, to occur. The greatest good which he could see as likely to come was more consolidation of schools and fewer small schools.

Miss Estella Bowman, chairman of the program committee, announced the next meeting for December 8, with Miss Olive S. DeLuce chairman of the Fine Arts department speaking upon "Modern Architecture in America."

Twenty-five members of the faculty attended the dinner. Dr. Frank Horsfall, president of the local association, presided.

Those Working Earn Total Sum of \$34,283.25; Pay Is 25 Cents an Hour.

Two Men Hold Pastorates  
Directors of Personnel for Both Men and Women Maintain an Employment Bureau.

Working their way through school means anything from being a life-guard to driving a bus, according to a survey made recently of students at the Northwest Missouri State Teachers College at Maryville. Two young men hold ministerial positions and attend College at the same time.

Approximately 40% of the students at the college have part time jobs this year, according to the survey. The chief occupation for women students is house work for either room and board or both. Others have found jobs as waitresses, faculty assistants, secretaries, clerks in downtown stores, assistants in the nursery school, the library, and the bookstore. One woman serves as a life guard at the gymnasium.

Of the men enrolled 57% are employed. A few are helping at home, employed at miscellaneous jobs and working for their room and board, but the largest number are employed either by the College or by Maryville firms.

Here are some of the things they do when they are not in the classroom: Farming, working as service station attendants, carpentering, clerking, writing for newspapers, teaching, gardening, advertising, playing in an orchestra, waiting tables, driving delivery cars and busses, doing Boy Scout work, assisting the faculty members and, as previously mentioned, engaging in ministerial work.

By the end of the school year, the men and women of the college who are working will have earned a total of \$34,283.25. This represents 137,133 hours of work. Student help is paid on a basis of 25c an hour. This summary is an approximation only, as the employment setup will undergo minor changes as the school year advances, but the figures have been estimated at a minimum.

The directors of personnel for men and women maintain an "employment bureau" throughout the year, having on file names of students who wish employment and the types of work for which they are fitted.

The College makes every effort to find employment for students who would not be able to come to college without it. However, many students each year indicate their desire to "work their way" even though they may not absolutely need to do so. This practice is discouraged, since jobs are not easy to find and it forces students from the campus who must have to work in order to come to college.

Special care is taken to see that scholarship does not suffer among the employed students. The college regulates the amount of class work students who are employed may carry, though exceptions are made when an individual's scholastic record is unusually high.

Wilbur Stalcup, director of personnel for men, and Miss Marian Lippitt, director of personnel for women, each maintains an "odd job" employment service as well as the "steady" employment bureau. For the first time this year, permanent record files are being kept of the persons desiring jobs, their qualifications, placements, and results.

Miss Lippitt has on file the names of many women students who are willing to do typing and shorthand, take care of children or do general housework, and Mr. Stalcup can recommend men for odd jobs such as stuffing and addressing envelopes, painting, clerking, washing windows, and other general work.

## Mr. Garrett Returns From Social Studies Convention

Mr. Hubert Garrett of the Social Science department has returned from a meeting of the National Council for the Social Studies and the National Foundation for Education in American Citizenship at Indianapolis, Indiana, November 20-22. Mr. Garrett left Wednesday, November 19, and returned Sunday, November 23.

Outstanding speakers of the meeting, Mr. Garrett says, were Wm. F. Russell, Director of the National Citizenship Education Program of the Federal Government; Frederick A. Ogg, president of the American Political Science Association; and Henry Johnson, Professor Emeritus of History, Teachers College, Columbia University.

Luncheon meetings were held each day, study seminars on Friday afternoon, and a banquet on Friday night. Mr. Garrett is enthusiastic about the convention.

## Collecting Barbed Wire Is Hobby

A very unusual collection is on display in the College library. It is a collection, made by Dr. Frank Horsfall of the College faculty, of eighty samples of barbed wire.

In 1937, Dr. Horsfall began his collection as an outgrowth of his interest in all kinds of farm implements. He wrote to the biggest manufacturers of wire and asked for samples. The American Steel and Wire Co. was the only one which had such a collection. This collection of 433 kinds of barbed wire is found in a museum in Worcester, Massachusetts. Although very few such collections exist, Dr. Horsfall, since beginning his hobby, has found other collectors from Minnesota to Massachusetts. It seems doubtful if more than a very few of these other

collections equal or exceed the one here.

In general there were two types of wire in use—that made of sheet metal and that made of wire with barbs fastened to it. The sheet metal type soon proved impractical. It was first invented in 1867 and a half mile of this wire was made by hand. Dr. Horsfall has a sample of wire made in 1868 by Kelley. The other three earliest wires were invented by Kennedy, 1874; Glidden 1874, and Halish 1875. Dr. Horsfall has samples of these four wires. The kind invented by Glidden is the most common type in use today.

Numerous inventors had wires patented until, since there is not an infinite number of ways to twist barbs together, in time it became very difficult to find a new type to patent. The oddest kinds in this collection are the two chain link, patented by J. W. Griswold in 1892, and the spur wheel, patented by Joseph Goss in 1893.

Unknown to many people who live here, barbed wire produced far reaching changes some years ago. Many areas were left largely unsettled until the invention of barbed wire because the cost of fence was almost prohibitive, especially on treeless marginal land. Barbed wire had a very important effect in the western states. Its coming destroyed the "cow culture" civilization there and was responsible for the rise of the range cattle industry. Barbed wire fences prevented the cattle drives of the "Git along, little dogie" type and forced shipment by railroad.

## The Stroller

Buildings and campus of Millsaps college, Jackson, Miss., have been renovated in a \$12,500 repair program.

## SOCIAL WHIRL

### Greek Fraternities and Sororities Hold Dance

The Greek Letter formal dance was held Saturday evening, November 15, at the west library at the College from 9 until 12:30 o'clock. Each year the dance is sponsored by the Alpha Sigma Alpha and Sigma Tau Gamma and the Phi Sigma Epsilon fraternities. Decorations were carried out in the display of the colors of the four Greek organizations, and the four crests were displayed on the walls. Music was furnished by the college dance orchestra.

Sponsors and invited guests present included Mr. and Mrs. R. E. Baldwin, Dr. and Mrs. C. Person, Mr. and Mrs. Norvel Saylor, Arthur Lindstrom and Miss Frances Shum of Tarkio, Miss Maxine Williams, Miss Miriam Waggoner, Mr. and Mrs. J. J. Rudin, Mr. and Mrs. W. T. Garrett, Mr. and Mrs. Henry Blanchard, Miss Helen Kramer, and Carl Fox of Kansas City.

### College Weddings

#### Tarpley-Baker

Two alumni of the College, Betty Jayne Tarpley of Maryville and Jay Glaze Baker of Jackson, Mississippi, were married Thursday of last week. The wedding took place at 6:30 in the morning at the parsonage of the First Presbyterian church, with Dr. W. S. Insley performing the single ring ceremony.

Attendants were Olive Jo Saunders of Maryville and P. A. Steward of Gower. Following the ceremony they went with the newly married couple to the home of the bride's parents, Mr. and Mrs. A. J. Tarpley, where a wedding breakfast was served them, the Mr. and Mrs. Hall Baker of Calinsville, parents of the groom, and Mrs. Mary Groves.

Mr. and Mrs. Baker left immediately for Jackson, Mississippi, where Mr. Baker is employed.

#### Johnson-Webb

Miss Mary Jane Johnson, daughter of Mr. and Mrs. O. L. Johnson of Maryville, Mo., and Virgil Franklin Webb, son of Mr. and Mrs. O. Webb of Graymont, Ga., were married October 14 in Savannah, Missouri.

Miss Johnson, a former student of the college who took her sixty-hour certificate in 1941, has been teaching in Forest City, Mo. Mr. Webb has been in Maryville the past year as an instructor and student at the Maryville School of Aeronautics.

#### Wharton-Kehr

Aletha Wharton of Stanberry, a former student of the College, was married Wednesday, November 19, to Glenn Kehr, also of Stanberry. The wedding took place at the home of Mrs. Kehr's parents, Mr. and Mrs. Melvin Wharton in Stanberry. The young couple left for a short honeymoon. They will make their home in Stanberry, where Mr. Kehr is editor of the Stanberry Headlight and Mrs. Kehr is a teacher in the Stanberry Public School.

#### Warfield-Poynter

Miss Virginia Warfield of San Antonio, Texas and Robert Poynter, of Fort Worth, Texas, son of Mr. and Mrs. George M. Poynter of Mound City, were married November 16 in San Angelo, Texas.

Mr. Poynter is a graduate of the Mound City high school. He received his B. A. degree in 1940 from the College. He was a member of

MRS. ROBERT M. MITCHELL

the Sigma Tau Fraternity.

Mr. and Mrs. Poynter will be at home in Fort Worth, where he is an instructor at the primary airplane training field.

### Approaching Marriage

Announcement has been made of the approaching marriage of Jenila Adkins, daughter of Mr. and Mrs. Chester Adkins of Rosendale, and Erwin Schneider, son of Mr. and Mrs. Erwin Schneider of St. Louis. The wedding will take place at 5 o'clock tomorrow afternoon at Rosendale.

Miss Adkins is attending the College and is a member of the junior class. Mr. Schneider is music supervisor at the Skidmore high school and a senior student at the College. The couple will be at home at 816 North Mulberry street.

#### Roark-Mitchell

Miss Rosa Lee Roark, daughter of Mr. and Mrs. Charles Roark of Maryville, and Robert Mason Mitchell, son of Mr. and Mrs. H. D. Mitchell of Skidmore, were married at 10 o'clock Saturday morning at the First Christian church in Maryville in the presence of relatives and friends. Rev. Sherman B. Moore, pastor, read the double ring ceremony.

The bride wore a brown ensemble with a corsage of white sweet peas and chrysanthemums. Miss Gertrude Yeater of Kansas City was the bridesmaid and she wore a street dress of aqua blue with black accessories and a corsage of pink sweet peas. Harry W. Mitchell of Skidmore, brother of the bridegroom, acted as best man.

The bride was graduated from the Albany high school and from the MSTC, where she received her degree in voice and music. She was a member of the women's vocal ensemble, a cappella choir and the college chorus. She is now music and English instructor in the high school at Gravitia, Ia., where she will continue her teaching.

Mr. Mitchell graduated from the Skidmore high school and the MSTC, where he received his degree in business administration and speech arts. He was a member of the Phi Sigma Epsilon fraternity. He is now principal and athletic director of the high school at Wheeling, Mo.

#### Dramatics Club Meets

Dramatics Club met at 7:30 on Monday evening, November 17. Try-outs for the Annual Christmas program were held. There are still several parts to be given to students who are interested, whether or not they are members of the Dramatics club.

#### Rasco-Collins

Miss Mildred Louise Rasco, daughter of Mr. and Mrs. Albert Rasco of Barnard, and Ralph Collins, son of Mr. and Mrs. George Collins of Barnard, were married at 10:30 o'clock Sunday morning at the home of Dr. C. C. James, who performed the double ring ceremony.

Mr. and Mrs. Collins are both graduates of the College high school and attended the College. Mr. Collins was a member of the Northwest Missourian staff while he attended the College. He is now employed at the Remington Arms Munition plant in Kansas City.

### College Has Entires in Kirksville Tournament

The College will have several entrants in the Midwest Speech tournament at Kirksville on December 12 and 13. Franklin Bithous will represent the school in after dinner speaking and Walter Johnson will enter in poetry reading.

A men's debate team will also enter. The question for debate is, "Resolved: that the federal government should control and regulate labor unions."

### Horace Mann High Boys Report Their Projects

Two high school boys of the Horace Mann Laboratory School who are working in vocational agriculture under the direction of Mr. R. T. Hubble submit the following project reports for the year.

Brice Hall's project for 1940-1941 was 17 head of grade Shropshire ewes. He saved 20 lambs, which came the early part of April. He creep fed the lambs corn and oats and got them off on the middle of July market. The lambs, which weighed 85 pounds brought \$11.25.

His total receipts were \$201.88; his total expenses were \$46.31, leaving a net profit of \$155.57 and a student labor income for 1940-41 of \$159.48.

For this year's project, Brice has 20 head of grade Shropshire ewes and one purebred Berkshire gilt. Madison Fannon had as his project a grade Spotted Poland China sow that farrowed March 28, having 8 pigs. The pigs were full fed on feeder, corn, ground oats, and a half-and-half mixture of tankage and soybean oil meal.

He sold the pigs about September 20, when they weighed about 220 pounds, receiving \$11.20 for them. He exhibited them at the fall fair, taking third on the ton litter.

The total receipts from Madison's project were \$208.36; the total expenses were \$81.10, leaving a net profit of \$96.26 and a student labor income of \$133.36. The cost of 100 pounds gain on the 8 pigs was \$4.14. Madison sold the sow he had for \$38.00 and purchased another with 9 pigs for \$40.00. The sow and 9 pigs are to be his project for the coming year.

### Discussion Meeting Brings Large Crowd

(Continued from Page One)

pect to make it an annual event. The teachers and principals present were greatly impressed with the value of discussion as an extra-curricular activity and as a means of classroom instruction. Several of them have already made plans to continue similar discussion groups in their own schools. High school students participating were alert, well informed, and enthusiastic.

"Our college students who served as leaders had no small part in making the day a success and are to be congratulated for their skill. Members of Pi Kappa Delta who had the task of arranging the program did so in such a manner that they received many favorable comments."

Two high school superintendents, E. O. Hammond of Plattsburg and C. O. Mann of Parkville, were present to observe the discussion plan and there were a number of teachers present in addition to the high school speech teachers who brought their students. Groups of students from Central high school of St. Joseph and Guilford high school

## Kansas City Philharmonic Delights Large Audience

The Kansas City Philharmonic Orchestra came to Maryville and has gone; but what it left behind with the vast audience which heard it will not soon go, if comments heard on the night after the concert was over and comments heard continually since are an index to the effect the hearing of the great music performed by a great orchestra and its great leader, had upon those who were fortunate enough to be present in the College Auditorium, Tuesday evening, November 18.

From the moment Karl Krueger took the conductor's position, the audience was enthusiastic. Expression of appreciation was so spontaneous that it was felt by the conductor and members of the orchestra, who expressed later their pleasure at the hearty reception given them. The orchestra's recognition of an appreciative audience was shown also through generosity in playing encores.

At the close of the formal program Mr. Krueger, after being called back again and again by the applause, said, "Should you like 'Dance of the Sylphs' from the 'Damnation of Faust' by Berlioz? No? Should you like 'Norwegian Dance' by Grieg? Yes!"

After a hearty round of applause, Mr. Krueger said, with that intangible smile of his, "I think we shall play both!" And the orchestra responded with the two numbers. Still the audience was not satisfied. The conductor announced two more numbers, "Russian Dance" and "Walk of the Flowers" from Tschalkowsky's "Nutcracker Suite."

The high point in the formal program was the "Symphony in D Minor" by Cesar Franck, a composition of pure music as distinguished from programmatic or descriptive music. It is a musician's number, but its construction is such that even the uninitiated responded to it with sympathy and understanding as it was interpreted by Mr. Krueger and his orchestra.

with their speech, instructors were present as observers.

Mr. Kroggel, Supervisor of speech education in Missouri, is keenly interested in discussion and has requested a full report of this meeting. Both Mr. Mann and Mr. Rudin are greatly pleased with the interest shown in discussion by other teachers and organizations on the campus.

### Musical Organizations Are Born in College

Minneapolis, Minnesota.—(AOP)—College campuses are the birthplace of more outstanding musical organizations than any other institution in the United States, according to Herbie Kay, orchestra leader.

Kay speaks from experience, because he got his start at Northwestern University. He is credited with discovery of such now-prominent stars as Dorothy Lamour, his former wife, Shirley Ross and Jeanne Carroll.

### Mademoiselle Announces Its Short Story Contest

Mademoiselle, "the Magazine for Smart Young Women," announces a short story contest for men and women under thirty years of age, with a first prize of \$500, a second prize of \$250, and three additional prizes of \$50 each.

By this contest Mademoiselle hopes to give encouragement to young writers of talent. Stories containing distinctive writing and original treatment, combined with some artistic form, will be given preference.

Stories may be on any theme of particular interest to young women under thirty. The length limit is 4,000 words. Longer stories will not be considered. The story must not have been published in any newspaper, magazine, book or college publication.

Manuscripts of stories submitted must be typewritten—double-spaced—or legibly written by hand. The name and address of the author must appear on each story submitted. The number of entries by one author will not be restricted. A stamped, self-addressed envelope must accompany each manuscript. Entries must reach Mademoiselle on or before midnight, February 1, 1942.

The winning stories will be published in Mademoiselle.

### Horace Mann Grades Give Program and Tea

The intermediate grades of Horace Mann presented the following assembly program at 2:45 o'clock, Tuesday afternoon, November 18: "America"—by the entire assembly

Scripture reading—intermediate grades  
"Faith of Our Fathers—by the entire assembly  
Reading—"Where a Smile Begins"—Joan Holman

Violin Solo—Jean McDowell  
Reading—"Thanksgiving Day"—Bob Bennington

Play—"Is this Thanksgiving?" At the close of the program the children donated volunteer gifts of vegetables and canned foods for a Thanksgiving basket for a needy family.

Immediately afterward tea was served in the library for mothers of the students by the intermediate teachers and their supervisor, Miss Ruth Keith. The table was attractively decorated with a bouquet of snapdragons and yellow candles. Miss Eunice Scott poured.

Reviews Dr. Mason's Article The Burlington Junction Post of November 20 carries in the left-hand column of its front page a review of Dr. Carol Y. Mason's article in the October issue of "Economic Geography." The article, reviewed some time ago in the Northwest Missourian, is concerned with rainfall in Northwest Missouri.

Beneficiary Is Former Student Miss Bertha Spidle, who was wife of \$10,000 by Fred Dodd, proprietor of the general store and Post Master at Bedford, who was fatally injured in a hold-up last week, is a former student of the College. She has been teaching for a number of years.

The people of North Carolina provided for a state system of higher learning in their first constitution of 1776.

### New York Times Looks Into College Situation

Bright spots in a darkening picture that confronts American Colleges and universities are pointed out by editorialists of the New York Times after a recent study of the national situation. Despite enrollment decreases caused by defense employment and the draft, institutions of higher learning have at least three times as many students as the had 25 years ago. Further, the Times envisions a situation that may force education "to leave its ivory tower and adapt itself more fully to the realities of our common life."

Here is the Times' analysis: "Enrollments in American colleges and universities, which rose to new levels as the country began to come out of the depression, are down again. President Raymond Walters of the University of Cincinnati, whose annual registration figures are the last word in this field, reports that out of 673 approved higher institutions in all parts of the United States, 125 have about the general statement. Women's colleges have lost less than men's colleges, public institutions less than those of under private control, independent colleges of arts and sciences less than the universities. The independent teachers' colleges have lost most heavily. Schools or colleges of medicine, engineering and applied science have gained.

"Some of the missing students are in the army. Others are in defense jobs. If World War experience is a guide in the present emergency, many of these will find their way back to college when the crisis is over—if it is over soon enough. The most drastic recession that can be expected this year will still have left us with at least three times the number of undergraduates registered in American colleges and universities 25 years ago.

"Financially the outlook is not bright for institutions dependent on endowments and tuition. It may not be much brighter for those dependent on public appropriations, for the non-defense tax dollar is shrinking. Educationally the situation has its hopeful side. Higher education, competing for youth in a war market, may be forced to leave its ivory tower and adapt itself more fully to the realities of our common life."

### Cast Chosen for Annual Christmas Assembly Play

The Christmas spirit is already in the air as the music and dramatic students begin preparations for the annual Christmas assembly.

The O'Neillians will present an old allegorical drama, Everyman, which is familiar to many. To date the following cast has been chosen to play these respective roles: Everyman, Raymond Hutchinson; Kin-dred, Wilma Adams; Cousin, Eddis Barber; Goods, Helen Johnson; Good Deeds, Joyce Kirk; Knowledge, Ellis Brock; True Wits, Marie Arnett; Beauty, Vivian Craig; Death, Walter Johnson; Angels, Grace Usher, Emma Ruth Kendall, Kathryn Wright.

The characters of Confession and Strength have not yet been chosen. The College choir, small orchestra, and a brass quartet will take part in the program. The choir will lead the audience in carol singing.

### "Human Alarm Clocks" Only Hurt Themselves

University, Va.—(ACP)—"Human alarm clocks" may have something with which they can impress their friends, but they don't do themselves any good by being able to hop out of bed at any given time.

This is the contention of Dr. J. H. Elder of the University of Virginia.

Dr. Elder says that if you make up your mind to wake up at a certain time you probably will, but the "preoccupation of the subconscious mind prevents sound sleep and causes waking, tossing and general restlessness." It's hardly worth the trouble, he intimates.

Lexington, Ky.—(AOP)—Gov. Keen Johnson has appointed 15 members of the University of Kentucky faculty and administrative staff to make plans for celebration of the 75th anniversary of the University in 1942, and at the same time to plan for inauguration of Dr. Harman Lee Donovan, newly elected president of the university.

Maryville, Missouri

# Football Crowned Shared by Maryville and Rolla Teams

Miners Beat Kirksville While Bearcats Trim Warrensburg Mules.

Springfield Downed Twice

Race Is Close Until Final Gun, Chiefly Because of Numerous Tie Games Played.

M. I. A. A. CONFERENCE (Final)					
	W.	L.	T.	Pts.	OP.
Maryville	3	1	1	54	20
Missouri Mines	3	1	1	50	20
Warrensburg	2	1	2	13	21
Springfield	3	2	0	54	52
Kirksville	1	3	1	34	52
Cape Girardeau	0	4	1	28	78

This game of football can't be diagnosed. No sir, Maryville beat Rolla 20 to 7. Kirksville held Maryville to a scoreless tie and Saturday afternoon Rolla beat the Miners 20 to 0.

And thereby hangs a tie. By beating Kirksville, the Rolla Miners share in the MIAA gridiron title for 1941 with the Maryville Bearcats. Each team ended the season with a record of three wins, one defeat and one tie. Maryville was the only team to beat Rolla in conference play, Springfield, conceded the edge for renewal of the championship when the season began, was the only team to beat Maryville in the conference.

That defeat was on October 10, the fourth game of the season for the young Bearcats who weren't ready for a team of the caliber of Springfield.

What happened to the Bears? They evidently got overconfident. A defeat at the hands of Talequah started them on the downward trail, with Rolla and Warrensburg knocking off the 1940 champions.

The way the Bearcats played last Friday at Warrensburg they could have defeated any other team in the conference. It was unfortunate that the Kirksville game was on a cold, windy day and slippery field, under the worst conditions of the year on the local field.

The MIAA schedule is completed with Warrensburg in second place, Springfield, Kirksville and Cape Girardeau following in order.

Springfield showed the most scoring punch, piling up 64 points, while Maryville was next with 54. Maryville and Rolla had 20 points against each of them in conference play, the smallest number of points in conference play. Up until Friday Warrensburg had the edge, with their goal not crossed by MIAA foes. But Maryville ran across three touchdowns and booted three place kicks for extra points.

Thus another season ends for the Bearcats, the fifth under Coach Ryland Milner who previously had directed the Northwest Missouri Teachers to two titles in two undefeated seasons. The only other loss suffered by the Bearcats was by Eastern Kentucky Teachers who opened the season here Sept. 19, with an 18 to 7 victory.

On Sept. 26 Maryville beat Jefferson Barracks 13 to 0; defeated Chadron Oct. 2 by 27 to 6; took it on the chin Oct. 10 with a 7-13 defeat handed by Springfield, beat Rolla 20 to 7 on Oct. 17, won over Rockhurst on Oct. 24 by 21 to 6, played in the mud at Cape Oct. 31 to win 6 to 0, played to a scoreless tie Nov. 7 with Kirksville and then on Nov. 14 beat Warrensburg.

## Hit Hard? Yes, But Even So...

When Maryville handed Warrensburg a 21-0 defeat in a battle for conference honors in the last game of the season for both teams the Bearcats proved to their fans and other conference teams that they were a fast and tricky squad, and one of which any school would be proud.

Last spring and at the beginning of the season the general belief was that the Bearcats had been hit too hard by the draft and graduation to have a winning team, and they were picked to rank third or fourth in the conference. But the Bearcats, upsetting all predictions, defeated three conference teams and tied with another, to share the M. I. A. A. crown with the Rolla Miners at the close of the season.

Captained by fullback Ivan Schottel of King City, the Bearcats totaled 122 points to their opponents 50. In conference games alone these figures stand: Maryville 54; Opponents, 13. Springfield is the only team in the conference which scored against the Bearcats.

Captain Schottel leads the Bearcats scoring with six touchdowns to his credit. Jack Padilla, speedy little halfback from Stuart, Iowa, ranks second with 5 scores. Other Bearcats who have crossed enemy goal lines are Bill Bennett, junior quarterback; Harold Flammang, junior center; Stanley Totoraitis, sophomore end; and Bruce Peters, Lee Vannoy, and Bill Winters, freshmen who have showed outstanding ability in their first year of college football.

Robert Gregory, senior guard, has done all the place kicking for the Bearcats. He has attempted 16 and made 14 points after touchdowns.

Prominent in the Bearcat line this year were Neilland Thompson and Jim Ellison, two of the heaviest tackles in the conference, and Tony Rizzo, in the guard position. Victor Farrell, tackle, and Frank Myers, right end, both valuable Bearcats, were injured and were unable to see action in many of the games.

Four Bearcats were chosen by Parke Carroll for his M. I. A. A. all-stars. They were: Captain Schottel, Gregory, Ellison, and Totoraitis.

Dr. and Mrs. Reven S. DeJarnette had as their guests during the Thanksgiving holidays, Mr. and Mrs. Robert E. Remund and children, Robin and Mary, of Minneapolis, Minnesota. Dr. and Mrs. DeJarnette are god-parents of the children.

Quentin Beggs Takes New Position

Mr. and Mrs. Quentin Beggs of Maitland are now in Kansas City, where Mr. Beggs has taken a position with an airplane factory. He is a former student of the College and has been teaching in Maitland.

Miss Lois Langland, a graduate of 1941, who is teaching in Corning, Iowa, spent the week-end with Doretha Henry at her home in Bedford, Iowa. Miss Henry had spent Thanksgiving at her home in Bedford.

PARKVILLE, MO.—(ACP)—Park college is about to get out of the utility business which it edged into accidentally 40 years ago by supplying the city with a water system. The city voted to turn over the provision of a water system to a private company—a decision that was approved on all sides.

Hammond, Louisiana.—(ACP)—Here's a genuine All-American team—Southern Louisiana College at Hammond, has boys from 11 different states on its starting football team. Mississippi, Kentucky, Connecticut, Texas, Arkansas, Massachusetts, Louisiana, Alabama, Ohio, Tennessee, and Pennsylvania, are represented. Many other states are listed among the scrub teams.

## Who's Who in W. A. A.

Miss Vida Bernau, the intramural manager of the Women's Athletic Association, comes from a neighboring state of Iowa. She is a graduate of Earlham High School and is now a senior in the College. While she was in high school she was interested in athletics and was outstanding in basketball. Upon entering college she chose physical education as her major field with another major in commerce.

Miss Bernau is doing practice teaching in physical education and has taken on many responsibilities such as being sponsor of G. R. A. and sponsor of the Freshman Class at Horace Mann School. Organizations in which she is an active member are: Barkatze, of which she is a captain, and W. A. A. Last year she received a national rating in basketball for refereeing and Senior Life Saving Award.

O. S. Y. Courses Get New Equipment

Daily shipments of equipment, received by the industrial arts department, are being put into effective use in the Out of School Youth training courses held nightly in the shop. Interest on the part of the men enrolled in the courses remains at its high peak, with their attendance still at a fine standard.

Dr. and Mrs. Reven S. DeJarnette had as their guests during the Thanksgiving holidays, Mr. and Mrs. Robert E. Remund and children, Robin and Mary, of Minneapolis, Minnesota. Dr. and Mrs. DeJarnette are god-parents of the children.

## Books For High School Circulating Library Here

First shipment of books for the high school circulating library, to be used in the high school reading circles of the county, were received yesterday at the county superintendent's office.

About 30 books were included in the shipment.

The high school circle is the first, so far as is known, to be set up in the state. The plan has been approved by the state department of education, according to Sup't. W. H. Burr and the department has printed special certificates for students who qualify in the high school circles. Both fiction and non-fiction books are included in the shipment.

The high school circle is operated on the same plan as the grade school circles with definite requirements set up for each year's reading.

## Mother of Mrs. Baker Dies; Funeral Today

Mrs. J. J. Hardin, 88 years of age, of Stanberry, died at 7 o'clock last night at the home of her daughter, Mrs. Frank W. Baker, a former student of the College. She is the grandmother of Margaret Baker, a College student and Frank Baker, a graduate.

Funeral services were held at 10:30 o'clock this morning at the First Baptist church in Stanberry with Rev. J. S. Forderhase, the pastor, in charge. Burial was in the High Ridge cemetery at Stanberry.

## Wheaton Is Experiencing Renaissance in Greek

WHEATON, ILL.—(ACP)—While the study of classical languages abounds in many colleges and universities, Wheaton college is experiencing a renaissance, particularly in Greek. Two hundred two students enrolled in seven Greek courses offered this fall and only 15 have dropped out.

With five Greek professors busy, the college is still hard-pressed to manage the large enrollment. Great pressure is felt in elementary classes in which 112 students enrolled, necessitating formation of five sections. Forty-two students are enrolled in the intermediate course, 37 in the Synoptic Gospels course, 14 in the advanced New Testament courses, and two in the advanced classical Greek courses.

Much of the demand for Greek is caused by emphasis upon studying the New Testament in the original language. Many of the students are enrolled in the original language. Many of the students are enrolled in the Orinda Childs Pierce memorial school of theology and the John Dickey, Jr., Memorial Theological seminary training course. Wheaton is the only college or seminary in the country that requires reading of the entire New Testament in Greek for classroom assignments and credit for a degree of master of arts in theology.

Betty Gay, a sophomore in the College, went to her home in Cameron for the Thanksgiving holiday.

## Collegiate Review

(By Associated Collegiate Press)

Nearly 2,500 students took correspondence courses offered last year by the University of Texas.

The University of Michigan arts college established the first chair of the science and art of teaching in the United States.

Frederick Hard, dean of Newcomb college at Tulane university, was at one time golf coach and leader of the band at Tulane.

Two fellowship grants of \$200 each, for research work in the department of business administration, have been announced at Wayne university.

Eighty-seven per cent of co-eds in a recent survey replied that sweaters and skirts are the backbone of college wardrobes.

Charles A. Duffy, 37-year-old New York city policeman, is enrolled as the oldest freshman at City college.

Draft boards recently granted deferment for 986 University of Minnesota students and faculty members.

The Horned Frogs of Texas Christian university will have traveled nearly 8,000 miles in playing six of their ten games away from home this season.

A course in fundamentals of meteorology has been added to the department of physics at the College of Mount St. Vincent, Riverdale, N. Y.

Eula Friend, University of Omaha beauty queen, received 98 fan letters after her picture was published in Look magazine.

Charles F. Bongard, law professor at Creighton university, has been appointed supervisor of the revision of the Nebraska statutes.

Franklin and Marshall college will receive about \$30,000 from the estate of Benjamin F. Packenthal, Jr., former chairman of its board.

The only two chapters of Phi Lambda Pi, sole organized social sorority for married women, are found at Tulane university and Louisiana State university.

Co-education was adopted at the University of Michigan in 1870. American Institute of Chemical Engineers has issued a charter for a student chapter at the University of Texas.

Words and music for seven favorite university songs are being sold by the Wayne university student council in a 13-page booklet.

A survey indicates that 66 per cent of co-eds wear anklets.

The Barnard college occupation bureau placed more students and graduates in jobs during the last academic year than ever before.

Joseph Caldwell, a Princeton graduate, was the first president of the University of North Carolina.

Cub Basketeers Report

Twenty-five Horace Mann students have reported for basketball practice to the coach, Harry Darr, and are working out daily under his direction. Six of the men reporting are letter winners from last year's team. Mr. Darr hopes for a highly successful season.

KENT, OHIO.—(ACP)—Production management may be a man's field, but that doesn't bother Anne Puz, lone girl in Prof. H. R. Nissley's production management class. The Kent State university co-ed, in competition with 19 men, made the highest score, and an A grade, in a recent comprehensive test.

Dean J. W. Jones will show his colored moving pictures to the Garden Club of Maryville on Tuesday evening, December 7.

Dr. O. F. Evans, University of Oklahoma geologist, becomes sort of a "ripple reader" when he wants relaxation; he interprets the significance of ripples left in sedimentary rocks.

Donald Driftmier, student at Park College and a brother to Lucille Driftmier, was on the campus Wednesday, Mr. Driftmier was on his way home to spend Thanksgiving.

## Only Five Letter-Men Drilling on Basketball Court

Coach Wilbur Stalcup Is Faced With Problem of Building Defense.

Up against the same difficulty with which football coach, Ryland Milner was beset at the start of the football season, lack of experience, coach Wilbur Stalcup has his basketball squad drilling strenuously in preparation for the season's opener with Missouri Valley, December 8.

Heading the group of basketball hopefuls are five letter winners from last year's aggregation, Frank Myers, Ringsstead, Iowa; Robert Gregory, Maryville; Ivan Schottel, King City; Eddie Johnson, Calhoun; and Paul Wilson, Columbus, Georgia.

These five men are the nucleus around which coach Stalcup hopes to build a winning aggregation. Aiding and abetting the letter winners from last year when the season gets under way will be several squad members from last year and a group of freshman candidates who have shown considerable promise.

Indications from the practice sessions held so far are that while the Bearcat men show a great deal of offensive ability, there is a definite lack of defense shown. In the practice sessions prior to the opening game much emphasis will, therefore, be placed on defensive training.

In the near future the squad which—when all men out for basketball are tabulated—will consist of nearly fifty men, will be divided into two squads. Some sixteen men will be retained on the A squad which will drill two hours nightly, from four to six, and the remainder will be deleted to the B group which will drill nightly at three o'clock.

Some of the basketball candidates, other than the letter men from last year's team, who have shown much promise and will, without doubt, see service this year are: Joe Lauchis, freshman from Chicago; Ed Infin, John Rudolph, and Howard Glavin, freshmen from Atchison, Kansas; Nilmarth Brown, freshman from Jamison; and Errol Myers, Ringsstead, Iowa; Art Schmagle, St. Louis; Stanley Totoraitis, Auburn, Illinois; Paul Fletcher, Horton, Kansas; Gene Cross, Benton, Iowa; and Buel Snyder, Clinton—all of the latter group of men have had a year's experience as squad members.

Mr. Norvel Saylor was the photographer.

## College Flier Is Instructor Here

Earl Bassett Received All His Training at Local Airport.

The Maryville School of Aeronautics has two primary flight instructors who have "made good" in their CPT training, and one of them, Earl Raymond Bassett, of Skidmore, received all his training at the Maryville school, according to Capt. Edward G. Schultz, operator.

The other CPT boy-who-made-good as an instructor is Edward Binder, shortly to qualify as a secondary instructor, who received part of his training in CPT and advanced to his present standing largely on his own time.

After completing that course in the spring he enrolled in the advanced course (cross country), including the instructor course, which he completed with outstanding grades. When he was granted his commercial license and instructor's rating he was employed on the staff of the Maryville School of Aeronautics as a primary instructor.

Bassett, who received his college training at the STC, lives in Skidmore with his wife, Dorothy, and daughter, Beverly.

## College Has Color Film Depicting Football Game

Considerable interest has been aroused in sport circles about the College by the color film which was made of the Warrensburg-Maryville football game of November 14.

The four-hundred-foot reel, which shows the action of the entire game, was shown in the Physics department on Monday afternoon and was viewed by the football squad that evening at the Horace Mann auditorium.

According to Coach Davis the film will be used by Mr. Milner in coaching and will remain here at the College. It will be shown at Assembly in a few weeks, and will serve as entertainment for visiting students on "Senior Day."

## Drama Loan Library Is Successful in Texas

AUSTIN, TEXAS.—(ACP)—Frank L. Winship, director of the drama loan library of the University of Texas, is convinced that Texans are honest.

Last year the library mailed out 26,235 plays, having a total value of \$13,000, to readers all over the state with only their word as security. Less than \$50 worth of the plays failed to return.

The largest play-lending library in the world, the drama loan library contains more than 30,000 titles, including all major plays. Plays from its shelves are available to anybody in Texas who is willing to pay the postage—which usually amounts to six cents.
